Krishiv | MEENA GOYAL ASSOCIATES

Building beyond wood, with Krishiv WPC & PVC boards.

A rapidly growing Indian manufacturer, exporter and supplier of WPC boards, WPC door frames, PVC foam boards and foam board chemicals — engineered as a termite-proof, waterproof and eco-friendly alternative to timber and plywood.

Manufacturing | Export | Foam Board Chemicals | WPC & PVC Boards

Who we are

Meena Goyal Associates is one of the known rapidly growing Indian companies in the domain of manufacturing, exporting and supplying a wide variety of WPC boards, WPC door frames, PVC foam boards and foam board chemicals, under the brand name "Krishiv."

Krishiv WPC can be used to make furniture such as kitchens, doors, wardrobes, table tops and office furniture — available in various sizes, patterns and designs as per client needs. Our products are termite-proof, waterproof and eco-friendly, offering the best alternative to wood, timber and plywood, helping keep the environment green and clean.

Service is our forte, and a value inculcated in every member of our team. We believe in ethical, long-lasting relationships — developing creative ways of solving problems with value-adding solutions, and turning market needs into customer solutions by taking ownership and accountability for our work.

Foam Boards

- **PVC Foam Boards**
  Waterproof, termite-proof panels for furniture and interior applications.
- **WPC Boards**
  Wood-plastic composite boards as an eco-friendly substitute for timber.
- **Door Frames**
  Durable, moisture-resistant WPC door frames built for lasting use.

> *"We turn market needs into customer solutions by taking ownership and accountability for our work."*

Termite-Proof
Built to resist termites and pests across humid and dry climates alike.

Waterproof
Holds up against moisture where solid wood and plywood would warp.

Eco-Friendly
A greener alternative to timber, reducing pressure on natural wood.

Custom Sizing
Available in sizes, patterns and designs tailored to client needs.

Krishiv
